

CHALLENGING WORK. FULFILLING LIFE.

Our culture is one that believes in **POWERING YOUR POTENTIAL.**

We offer a working environment where many of the skills learned and values instilled through military service are not only applied, but embraced.

At Cummins, you will have a clearly defined purpose and a critical role to serve. You will also be part of a wildly diverse and inclusive team where collaboration is essential. You will be able to chart your own course and are encouraged to try different things, and move into different areas to expand your experience to discover what works best for you.

The Veteran Employee Resource Group (VERG) was created to support military veterans, current service members and their families, both inside and outside of Cummins through internal programs and community outreach opportunities. The VERG supports and advocates for the understanding of military veteran needs throughout Cummins, and also offers a buddy program for veterans within the group.

I have worked at several different employers, but none had the opportunities for growth and personal development like Cummins.

RACHEL M.
Materials Planner Manager
U.S. Army National Guard
