

PGY1 PHARMACY PRACTICE RESIDENCY (AMBULATORY CARE FOCUS)

Providence Sacred Heart Anticoagulation and Pharmacotherapy Clinic
Spokane, WA

Providence is calling.

Providence Sacred Heart Anticoagulation and Pharmacotherapy Clinic Pharmacy Residency Program: Offering Options for Advancing Your Career

Training That Prepares You For A Clinical Career

At Providence Sacred Heart Anticoagulation and Pharmacotherapy Clinic, we believe strongly in the effectiveness of patient-centered, clinical pharmacy practice; it is a philosophy that is supported across the Providence organization. The purpose of the PGY1 pharmacy residency program is to build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certifications, and eligible for postgraduate year two (PGY2) pharmacy residency training.

Post-Graduate Year 1 Residency Program

Our PGY1 Pharmacy Residency is designed to meet the requirements outlined by the American Society of Health-System Pharmacists. Residents receive training and experience in clinical, administrative, and distributive pharmacy. Each resident completes a project related to pharmacy practice. Our affiliation with Washington State University College of Pharmacy offers numerous academic opportunities.

The PGY1 Pharmacy Residency offers the benefit of a unique training program. The wide variety of rotations and learning experiences within the setting is a strength of our program. Elective transplant and maternal fetal medicine experiences produces a well-rounded graduate by offering residents an opportunity to follow patients during admission at Providence Sacred Heart Medical Center and Children's Hospital. Everything you learn about pharmacy practice will be based in our patient-centered Mission of providing compassionate care.

Staffing requirements provide hands-on experience which exposes residents to real-life clinical and operational situations; residents will gain experience in a weekend outpatient setting. A strong commitment to drug dispensing and clinical orientation/training along with ongoing support ensure successful staffing experiences.

You'll Be Trained In One Of Washington's Leading Clinics

Providence Sacred Heart Anticoagulation and Pharmacotherapy Clinic offers a full range of clinical services and has been recognized as a National Center of Excellence for Anticoagulation and our sister clinic in North Spokane is recognized as a Joint Commission Best Practice site. The clinic's scope offers numerous opportunities for learning how to manage a wide variety of disease states.

You'll Be Part Of A Progressive Pharmacy Team

Our commitment to patient care has clinical pharmacists providing services to a wide group of patients. The pharmacists are relied on as a valuable member of the care team. Pharmacists provide oversight and input in medication therapy by participating in profile review and intervention, dosing protocols, drug information, clinic & medical staff education, committee participation, and protocol development. These longstanding practices have resulted in excellent relationships with our community, medical, and nursing staffs.

The clinical pharmacy services provide the basis for the wide variety of rotations. Under the direct supervision of their pharmacist preceptor, residents are actively engaged in each aspect of the care carried out by the pharmacy team.

Expand Your Pharmacy Leadership Skills

Residents will complete a performance improvement project related to a particular aspect of pharmacy practice, which will span the length of their residency and provide numerous opportunities to develop leadership skills. Projects are selected by the residents from a list of opportunities identified as an area of clinic need which ensures appropriate level of support for successful completion. During the pharmacy administration rotation, the resident will work with leaders to develop and improve projects; and attend department, hospital, and system meetings.

Providence Health & Services is an equal opportunity employer.

Providence is calling.

Take Advantage of Our Affiliation with Washington State University (WSU)

Our relationship with the College of Pharmacy affords our residents many opportunities throughout the year. As a resident, you'll have teaching opportunities throughout the curriculum, including; didactic lectures, small group teaching in Applied Patient Care Laboratory, journal club, and assistance with precepting 4th-year students on rotations. In the broadest sense, our affiliation encourages an academically motivated environment. Our residents obtain adjunct faculty status as Clinical Instructors and complete the teaching certificate program offered by WSU.

You Get the Support of One the West's Largest Health Care Organizations

Providence Health & Services is one of the largest health care providers in the West with facilities in Alaska, Washington, Montana, Oregon, and California. One of the reasons new pharmacy graduates and residents decide to join us is that our clinical setting allows them to do what they have trained to do. Our clinical pharmacists love the ongoing contact they get with patients. The direct involvement in patient care and patient contact allows you to experience the rewards that come from the development of a practitioner-patient relationship. Implementation of a system-wide electronic medical record has allowed us to provide efficient and quality care to all patients within Providence across the continuum of care.

Receive Salary, Benefits And Travel Opportunities

Pharmacy residents will be employees of Providence Sacred Heart Anticoagulation and Pharmacotherapy Clinic and will qualify for employee benefits. The resident benefits package will include Medical, Prescription, Vision, and Dental coverage (for you and your dependents), and paid time off. The residency program supports travel to state, regional, and national meetings.

Spokane And The Inland Northwest

Providence Sacred Heart Anticoagulation and Pharmacotherapy Clinic is located in Spokane (approximately 280 miles east of Seattle) in the Inland Northwest. The area is surrounded by a variety of nature and landscapes including rolling wheat fields, forests, snow-capped mountains, and clear lakes, with a river at the center of the city. Spokane has four seasons which accommodates a wide variety of outdoor activities. With several colleges nearby, it is host to college sporting events and community sports, including Hoopfest (largest 3-on-3 basketball tournament in the world) and Bloomsday (the second largest timed road race in America).

Applicant Requirements

Prior to the start of the program, the resident shall be a graduate of a college of pharmacy accredited by the American Council of Pharmaceutical Education (ACPE) and shall be licensed or eligible for licensure in the State of Washington. Residents not licensed as a pharmacist at the beginning of the residency must be licensed as a pharmacy intern in the state of Washington. The applicant shall meet all the HR requirements for employment including passing a background check and drug screen, and meet the professional requirements of the Department of Pharmacy. Strong residency candidates will possess excellent verbal and written communication skills, professionalism and leadership, and demonstrate a commitment to the provision of pharmaceutical care. Candidates must participate in the ASHP resident matching program.

How To Apply

Complete the Online Residency Centralized Application at ashp.org/PhORCAS. Application deadline is December 30th.
